

*“Smart People
Solving Problems”*

Buys & Associates, Inc. is an environmental consulting firm that specializes in defining and resolving your environmental issues.

B&A realizes that time and accuracy can make or break a project. Our approach is to evaluate problems that either the client, the agency, or we have identified and then design and implement a program with cost-effective solutions.

B&A biologists, geologists, paleontologists, archaeologists, NEPA experts, and other specialists provide a unique blend of technical expertise and regulatory knowledge. We understand how to approach even the most difficult projects. With our knowledge of regulatory requirements, you can count on us for practical and appropriate solutions to your environmental needs.

Stormwater Management & Erosion Control

Buys & Associates, Inc. provides the services and resources to ensure compliance with all Phase II Stormwater requirements and National Pollutant Discharge Elimination Systems (NPDES).

Stormwater services provided to our clients include:

- Design of cost effective, Stormwater Management Plans and/or Stormwater Pollution Prevention Plans (SWMP/SWPPP) that meet all applicable local state and federal requirements.
- Permit preparation and submittal of Notice of Intent (NOI) and Notice of Termination (NOT).
- Proactive approach to ensuring compliance and effectiveness of controls through water sampling over the lifetime of a project.
- Best Management Practice (BMP) Design
- Bi-weekly and Post Storm Inspection Services
- Audits
 - Evaluation of existing BMPs
 - Evaluation of existing SWMPs
- Construction Supervision—BMP installation and maintenance
- Implementation of SWMPs for sites bordering and/or crossing rivers, creeks, streams, or other sensitive areas
- Customized Stormwater Management & Erosion Control training

Buys & Associates, Inc. Stormwater Team

JOHN A. JEHN, PG, *Stormwater Project Manager*

John Jehn has over 22 years of professional experience and has earned a stellar reputation as a geologist with experience in the fields of environmental science, remediation, geotechnics, and construction. John now heads the stormwater Management, Quality Assurance and Quality Control group at Buys & Associates. John is well versed in all aspects of Phase I and Phase II of the Clean Water Act, erosion control, state permitting, and construction compliance. He is also a professional geologist in the state of Wyoming and Tennessee and serves as Vice President of the Jefferson County Department of Public Health & Environment board.

CARRIE GUDORF, CISEC, *Environmental Technician*

Ms. Carrie Gudorf is a skilled environmental specialist with over six years of professional experience ranging from wildlife biology to regulatory compliance. In recent years, Ms. Gudorf has focused on stormwater Management and Compliance and is familiar with current rules and regulations, Best Management Practices (BMPs) design and evaluations, stormwater site inspections, and designing, writing and implementing stormwater Management Plans. Ms. Gudorf recently earned the national honor of Certified Inspector of Sediment and Erosion Control (CISEC). In addition to her experience in regulatory compliance, Ms. Gudorf is a highly qualified wildlife biologist with extensive experience in sensitive wildlife/vegetation species identification, habitat assessment and mitigation.

TUCKER JACKSON, *Environmental Technician*

Mr. Tucker Jackson joined Buys & Associates in June 2008 with a background in both political and environmental science. He is currently located out of Buys & Associates' Grand Junction office. Mr. Jackson's experience includes knowledge of land use planning policies, water and wildlife on a local and global scale, methods and techniques used in determining proper development options based on site characteristics, environmental audits, stormwater management and erosion control, water and soil sampling, BMP installation, maintenance and evaluations, site inspections, commercial construction, and customer relations.

SEAN MCCARTHY, *Environmental Scientist*

Mr. McCarthy joins Buys & Associates as a recent college graduate with a degree in Civil Engineering from Iowa State University. Sean is a member of the regulatory department, specifically the Stormwater Management Team, and is experienced in well monitoring, water and soil sampling, Stormwater management and erosion control, BMP design and installation, and basic culvert channel and pond design.

DAN SOUCY, CISEC, *Environmental Scientist*

Mr. Soucy brings five years of professional experience to Buys & Associates with a varied background in regulatory compliance, NEPA documentation, biological surveys and ecological restoration. Mr. Soucy is skilled in designing and implementing customized stormwater management plans for clients throughout the Rocky Mountain region. In December 2008, Mr. Soucy demonstrated competence in the field of Stormwater management, thus earning the national honor of Certified Inspector of Sediment and Erosion Control (CISEC).

DEREK VEAZEY, *Environmental Scientist*

Mr. Derek Veazey's reliability, versatility and educational experience make him an asset to Buys & Associates' team of Environmental Scientists. Mr. Veazey has assisted the regulatory team in the preparation and data collection for SPCC Plans and stormwater Management Plans throughout the Rocky Mountain Region. He is well versed in stormwater Management services and experienced in implementing Best Management Practices (BMPs) and conducting site evaluations for large scale sediment deposition and erosion control measures in Colorado and Utah.
